Grouping of several references: refer to the column with the total number of cartons
For larger quantities or prices depending on annual volumes: please get in touch with us

PS Model: crystal polystyrene, highly transparent, rigid, but rather fragile.
AC Model: our exclusive material, fully transparent and nearly unbreakable. Rigid and crystal.
PP Model: translucent soft material, commonly also used for food packaging. Impact proof. Alternative to AC material.
Transport costs: free delivery to U.K. (mainland only) for all orders starting with 1 mini-pack
Delivery times: usually between 2 and 5 days (all products available in stock)
Method of payment: bank transfer or credit card
Samples: on request by email (contact@plastilys.com) or by fax
Prices in GBP, reserved for professionals having an intracommunity VAT number

Extracts from our terms of sale:
- Ownership reserve clause: The delivered goods remain our property until full payment of their price. - Should the goods arrive damaged, even partially, they should be the object of reserves made to the carrier and the goods should be refused. As soon as we are informed of the claim, we agree to send your order again. - In the event of non payment at due date, the purchaser will be charged a penalty of 3% per month on the outstanding amounts and this without further notice. Fault of payment at any one of the due dates, the other instalments will become immediately due even if they are the object of bills. In the event of collection through litigation or legal proceedings, a penalty of 15%, or a minimum amount of 300 €, will be applied as damages, in addition to the above-mentioned penalties, and this without limiting the other possibilities of action. - Any disputes will be referred to the Law-courts of DIJON which have sole jurisdiction.

PLASTIC BOXES FOR BUSINESS CARDS

Direct from the manufacturer

All our products are manufactured in Europe, at our facility in Auxonne. You are ensured of top quality at the best prices.

Unbeatable prices

We do our best to offer you the best products at the best prices. If you find the same product for less elsewhere, we will adapt and offer you our shockproof quality for the price of crystal material.

Shockproof material

Our exclusive "shockproof" material combines perfect transparency, a rigid indeformable box, and exceptional resistance to shocks (the box resists being dropped from a height of several metres, or can be sent by the post in an ordinary envelope).

Competitive

To the contrary of cardboard boxes or boxes to be assembled, our boxes are ready to use: you just have to close the lid which means reduced labour costs added to your competitiveness. In choosing the "shockproof" version, you save even more on the packaging.

Quick delivery

All our products are in stock for immediate delivery.
